

ECOFLOW SUCCESS AT

Hyatt Regency Austin Town Lake

Location

Austin, TX

Highlights

- 450+ guestrooms
- AAA Four Diamond Hotel award winner
- 2 restaurants and coffee shop

Problem

Terrible odor problems coming from the restaurants led to patron complaints. The room service and catering kitchens also had serious odor problems.

Ecoflow Solution

The Hyatt Austin Town Lake installed a BIO-Amp™ in the main kitchen area to eliminate the odors.

Result

Within two weeks, the odors were gone and the kitchen became a much more sanitary and pleasant place to work. Due to the success in the kitchen, a BIO-Amp was added to the banquet kitchen to eliminate odors.
